

Dear NKRV members,

In this newsletter we will inform you about the upcoming NKRV activities and other topics that might be of interest. If you have items to be listed in the next newsletter or on our website, please contact us via info@nkrv.nl. Your input and ideas will be appreciated.

NKRV Workshop 2022

Save the date! The upcoming NKRV workshop will be June 24th in Groningen. The programme and link to the registration form is attached to this newsletter. We are looking forward to this workshop and hope to see you all in Groningen!

Meetings and workshops in 2022

In the light of the current COVID measures we are allowed to travel and to attend live meetings again. There are a lot of opportunities to participate interesting symposia; like the ISRS in Nantes and ESRR in Verona both focussed on radiopharmaceutical developments, but also the more general EANM meeting in Barcelona and meeting more specific on radionuclide therapy like TERACHEM.

- 29th May – 2nd June: International Society on Radiopharmaceutical Sciences (**ISRS**) in Nantes, France ([more info](#))
- 24th – 27th November: European Society on Radiopharmacy and Radiochemistry (**ESRR**) in Verona, Italy ([more info](#))
- 14th – 17th September: Symposium on Technetium and Other Radiometals in Chemistry and Medicine (**TERACHEM**) in Bressanone, Italy ([more info](#))
- 15th – 19th October: European Association of Nuclear Medicine (**EANM**) in Barcelona, Spain ([more info](#))

Spring 2022

New Board Members

We are looking for new enthusiastic board members! If you are interested to join the NKRV board, this is the moment! There will be two vacancies for new board members. If you are interested, please send a short motivation letter and two letters of support from NKRV members to info@nkrv.nl. Do not hesitate to contact us if you have questions.

Travel funding

Travel funding is available for joining (inter)national conferences to showcase your research and for international research visits!

We are happy to inform you that there is budget to attend symposia. The NKRV has reserved money to sponsor the attendance of PhD students and technicians to radiochemistry conferences in 2022. A maximal amount of 500 euro can be requested per student/technician per year.

We have also decided to expand these funding opportunities to travel expenses for traineeships/research visits as well. If you are planning to visit another radiochemistry lab in order to learn or improve on a specific technique, we can support this. Please contact us via info@nkrv.nl if you are interested.

Open positions

Are you looking for a new colleague? We can post your vacancy on our website. For more information, please contact info@nkrv.nl. Are you looking for a new position yourself, please have a look [here](#).
